

qeeboo

2024 / 25

One of the things that has always distinguished Qeeboo is the commitment to provoke thoughts by combining a narrative approach with a relentless pursuit of new forms of expression. With an audacious spirit as our guiding beacon, we embark upon a new chapter to unveil the results of our latest efforts. Within our iconic collection, we present Ghoda, a creation by Satyendra Pakhalé, an esteemed Indian designer whose work embodies the evolution of a refined ethnic aesthetic. Ghoda seamlessly blends an almost ancestral iconicity with a very contemporary expressiveness, reflecting Pakhalé's distinctive language.

Our furniture category welcomes two noteworthy additions.

First, the Wing armchair/chaise longue, an elaboration of the Calla designed by me in 2002. This versatile piece transitions from an armchair to a chaise longue, opening its armrests laterally creating a continuous curve which you can recline comfortably on.

Next, the XOXO chair designed by Nika Zupanc captivates with its playful interpretation of the iconic mouth motif, accentuating the subtle dimple at the center of the upper lip.

Expanding our range, we introduce new additions such as Teddy Love XS and the Turtle Carry XS family, products reimagined with a new material: the transparent methacrylate for a modern twist. Additionally, we present the Bigger Brother, a larger counterpart to the beloved Sweet Brothers, crafted from a new granulated material derived from recycled polyethylene.

Joining these offerings is the Filicudi stool, complementing our chair and armchair selections to form a cohesive seating family.

In recent years, Qeeboo is taking on a very important connotation, embracing the discovery and launch of creative talents, bridging the gap between different disciplines (such as art, graphics, illustration) and the world of design.

The first successful experiment that allowed the development of a very large family of products was carried out with Marco Oggian, a very talented multidisciplinary Italian artist. This year, new types of products are added to his collection: new vases, new shaped carpets, smaller than the previous ones, a candle holder and a series of wall clocks.

A new, strong collaboration has been developed with Shantell Martin, an established New York based artist, with whom we unveil Linescapes, a captivating collection infusing her distinctive style into carpets, poufs, and cushions, marking a new chapter in our creative exploration.

With each addition, Qeeboo reaffirms its focus on innovation, creativity and the celebration of diverse artistic voices in the realm of design.

Join us on this journey in experiencing the harmonious convergence of design, functionality and technology, where every piece tells a tale and every detail ignites the imagination.

Satyendra Pakhalé

Chair

Ghoda Chair is a seat with an energetic physical presence. The seat has evolved from Satyendra Pakhalé's most iconic work, the B.M. Horse family created in 2000 as limited editions in bronze. The Ghoda Chair refers to its 'sensuality' and 'spaghetti-lost-wax-casting-process', it's a project between craft and industry, its image moves between ethnic and pop culture. Now, industrially produced by Qeeboo in recyclable polyethylene in several colors and mixes, Ghoda Chair becomes the main character in any indoor or outdoor space.

XOXO

designed by
Nika Zupanc

Chair

XOXO Chair, a new design by Nika Zupanc that playfully winks at our cultural obsession with beauty and transforms it into a statement piece for your home.

Drawing inspiration from the timeless allure of lips — a symbol steeped in history representing desire, rebellion, and pure aesthetics — the XOXO Chair introduces a refreshing perspective. Rather than a literal representation, it captures the essence of the form through a single, elegant curve. This evocative silhouette hints at the iconic shape while leaving plenty of room for your imagination to take the lead.

A chair with a powerful presence that transcends trends. It's undeniably chic, yet understated, making it a versatile conversation starter for any room. Available in different colors.

Wing

designed by
Stefano Giovannoni

Armchair and Chaise Longue

Like a real transformer, Calla, the project designed in 2002 by Stefano Giovannoni, evolves into Wing, a suspended and light armchair which becomes a chaise longue evoking the fluidity of movement. A sculptural object that transcends the conventional boundaries of seating, capable of characterizing with distinctive elegance any space. Available in various colors.

Filicudi

designed by
Marcantonio

Armchair / Chair / Stool

Filicudi is a family of seatings suitable for indoor and outdoor use with the aim of recreating the Mediterranean magic in our everyday spaces. The prickly pear is the iconic plant, the welcome symbol of its land: a magical place that tastes of holidays and untamed nature. Filicudi evokes unforgettable sceneries and special relaxing moments where the air is intense and full of lights.

In the evolution of this collection, from the iconic armchair to the charming chair, and now to the newly introduced stool, the Mediterranean spirit is reimagined once more, serving not only as furniture but as a way to bring people to those distant shores where the air is thick with the scent of adventure and the light dances with an ineffable radiance. Available in multiple colors.

Turtle Carry

designed by
Marcantonio

**Planter XS / Jewelry Tree XS /
Pocket Emptier XS / Lamp XS**

**Planter and Champagne Cooler /
Pouf / Lamp / Coffee Table /
Bookcase / Bed Table**

Turtle Carry family is inspired by the natural world and its bizarre shapes translating them into speaking objects full of irony and cheerfulness. Somebody said that turtles are the most savior and adaptive among all animals because they walk around carrying their homes on the shoulders. Our Turtle is no exception, sustaining on its shell a book pile, a coffee table, a bed table, a soft cushion, a lamp and a planter. And that's not all: our tireless friend is going to move around even more items with different uses, creating new surprising combinations.

Qeeboo enriches the Turtle Carry collection with the addition of the cute multifunctional turtle, back in a completely new small version with new colors and materials. Its carapace continues to serve as a support for a series of complements that can be easily fixed over the shell, becoming a pocket emptier, a small lamp, a jewelry tree and a small planter.

Golden, Sweet & Bigger Brothers

designed by
Stefano Giovannoni

Portable Lamps

Designed by Stefano Giovannoni, the Golden Brothers and the Sweet Brothers are a family of portable lamp-characters which, reflecting a soft light on their body, enhance the plasticity and fluidity of their silhouette in a gold metal finish or in different soft touch colors, assuming different postures. They create an animated landscape characterizing the table and every corner of the house. This family of portable rechargeable battery-operated LED lamps is equipped with a soft touch switch.

Qeeboo now introduces a new and bigger member of the family: the Bigger Brother, maintaining the same endearing posture of the renowned Tom lamp. Crafted to illuminate your space, the Bigger Brother is a cable lamp equipped with an integrated switch that allows you to light up his head.

Available in a range of different colors from solid to recycled mixed blends, he can be your bedside companion, a reading light, or a decorative accent.

Teddy Boy, Girl & Love

designed by
Stefano Giovannoni

Portable / Cable lamps

The Teddy lamp family, designed by Stefano Giovannoni is going to take over your homes with its pop allure. Boy and Girl, with different colors and finishings, re-interpret the original Teddy bear mixing its traits with almost human features. Teddy Boy winks with an irreverent attitude. Teddy Girl, more timid and delicate, embraces a small luminous sphere. Qeeboo develops an adorable addition to this beloved collection: The Teddy Love XS.

This creation is downsized to a smaller version compared to the original ones but with just as much heart. Instead of the classic sphere lamp that the Teddy Girl holds, Teddy Love XS carries a heart-shaped lamp, radiating warmth and affection wherever it goes. Whether it's placed on a bedside table, shelf, or desk, Teddy Love XS infuses any environment with a touch of cuteness and light. It's not just a lamp; it's a heartwarming companion!

The winding curves and tangled knots of plastic are a reference to the studio’s ethereal, youthful, dynamic language. “Bacana”, which in Portuguese slang means “cool”, perfectly translates the Campana’s vocabulary while using minimum quantities of material, establishing a new standard for sustainable design and mass production. Available in various colors and perfectly stackable.

Studio Job

Floor Lamp

Fallen Chandelier is the last masterpiece by Studio Job, a floor lamp suitable for indoor and outdoor environments. Inspired by their unforgettable art installation named "Fallen Chandeliers", a series of off scale lamps scattered on a large field where once a royal palace stood. As memory of the missing palace only the lamps were left on the ground. Qeeboo transforms this art project into a design object that reflects the same timeless dream. Influenced by 19th century Thonet classic curves, this object travels through times to be the outstanding protagonist in each place it lives in.

Mexico

designed by
Studio Job

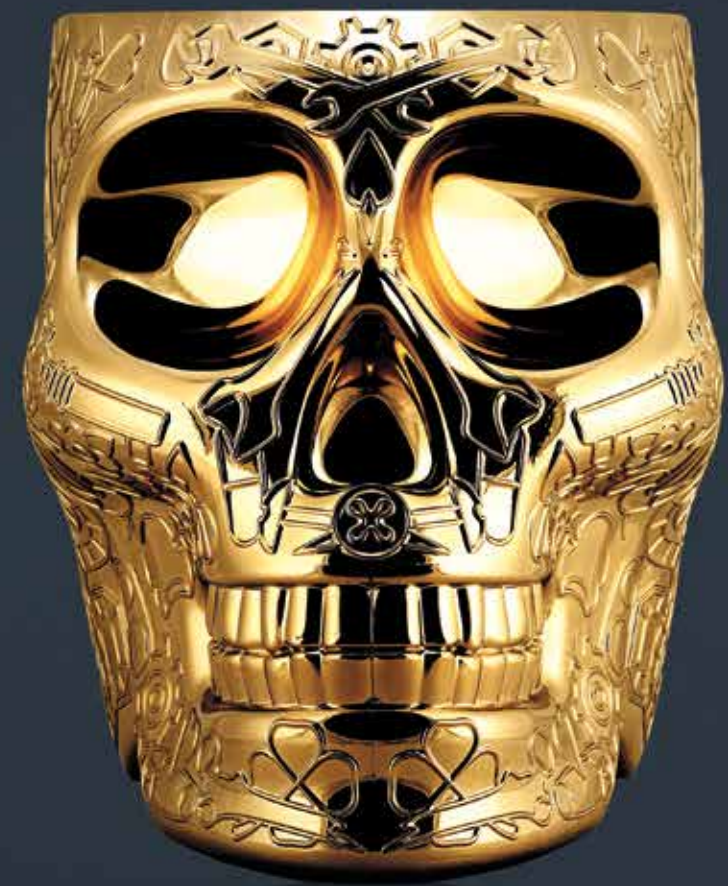

**Stool and Side Table /
Portable Lamp /
Planter and Champagne Cooler**

Job was inspired by a legendary figure who lived wrapped in mystery: "the singer without a name". "No one had ever seen her come out of her house, where heavy velvet curtains hid her from the eyes of the curious. The inscrutable singer was the author of a great musical success entitled, in fact, Mexico" (Job Smeets).

The result is a story that plays down on what scares us most, death, meaning that it cancels the features of the face and transforms it into something else. Decorated with the Mexican skull's graphic pattern, a symbol created to exorcise death and celebrate life, it can become an extravagant stool, side table or planter in different colors and finishes.
