

IROKO AĞACI

IROKO TREE

Ürünlerimizde kullanılan Iroko, Orta ve Batı Afrika ülkelerinde yetişen bir ağaç türüdür. İçerisinde yağ bulunduğu için su tutmaz. Bu sayede bakteri üretmediği için doğal çürümeye dayanıklı bir yapıya sahiptir. Yağmura, rüzgara, neme, güneşe ve soğuğa karşı dayanıklıdır.

Dış mekan mobilya, doğrama ve kaplamalarında kullanıma uygundur. Iroko ağacının rengi homojen olmayan sarı tonlarına sahiptir. Güneş ve oksijen ile temasa geçtiğinde zamanla kahve ve çikolata rengi tonlarına dönüşerek homojen bir görüntü oluşturmaktadır.

Iroko, parke, tekne ve bahçe mobilyası gibi zorlu iklim koşullarında tercih edilen bir ağaç türüdür.

The tree Iroko which is used in our production is a large hardwood tree grows in the mid and west countries of Africa. It is naturally rich in oils which makes it water repellent.

Thus there is no bacterial cultures and as a result, is a rot resistant wood. It is resistant to the rain, wind, moisture, sunlight and cold. The use of it is convenient for the slicing and coating of the outdoor furniture. The color of the tree Iroko is nonhomogeneous yellow

The wood color darkens to a richer brown over time when it gets in contact with sunlight and the oxygen. It gains a homogeneous image. Iroko, is preferred in severe climate conditions for parquet, boat and outdoor furniture.
