# Butterfly Collection

---

We were born in the midst of beauty. We feed off the culture and charm of a stunning country like Italy.

We have produced wooden chairs for over forty years, made with love and with all the spirit of our land. Today we celebrate a new phase for SevenSedie, repeating the same philosophy of quality that distinguishes us now in a bigger project, to completely furnish the home.

Butterfly collection is the line designed to make each setting enchanting, with an Italian inspiration.

The name of this collection is a tribute to the work of Giacomo Puccini: an example for those who, like us, want to give others something marvelous, designed and built in Italy with a international feel.

---

---

The design is suggested by nature, which gives us the materials to create unique pieces. As does the chrysalis which becomes a butterfly, we wanted also, in turn, to add wings to our spine.

We are proud to present our Butterfly collection, with which we want to celebrate the harmony of the world, bringing it in every home that wants to feel magnificent.
