A Manutti experience is a moment of joy and cosiness under the sky. Warmth and luxury for everyone, everywhere: from sunrise until sunset.

Step outside. Feel the warmth on your skin and enjoy the presence of your loved ones. At Manutti we believe in the beauty of outdoor spaces and their power to connect us. Our pieces are designed to inspire you to spend unforgettable moments outside with friends and family, at any time of the day, from dawn to dusk.

Manutti pieces are more than furniture. They are the canvas on which you'll create cosy and congenial moments. They are for everyone, every moment, and wherever in the world you may be. Whether you prefer relaxing besides the cool crisp water of your private pool, in the salty dunes near the shore, or want to bask in the serenity of nature or the vibrant atmosphere of the city: we've cultured four styles that will defy your expectations. Just sit back, relax, and get inspired.

The common themes in our designs: innovation, craftsmanship and an uncompromising eye for quality.

That's why our exclusive pieces are true originals and destined to become icons. At the same time, we keep your everyday needs in mind. Each design is well-considered and consciously aligns with the practical aspects of life. We have added a graceful element of softness that will bring you into harmony with the present moment. A Manutti moment is designed to last a lifetime. Make sure you fill it with warmth, luxury and pleasure.

A photograph of a modern outdoor patio. In the foreground, two light-colored, square armchairs with thin metal legs are positioned on a wooden deck. To the right of the chairs is a young, slender tree with light green foliage. The background features a tall, white, minimalist wall that casts a shadow on the left. The scene is set against a backdrop of lush green trees under a clear sky.

# Moods

# Tropical Concrete'

Tropical concrete, our first style, triggers vibrant emotion.

Embrace the urban vibe: chill, comfy and vibrant. Explore the grandeur and excitement of city life, with its grand boulevards, open squares and dazzling architecture.

Discover the perfect mix of old and new. Amble past impressive art deco houses surrounded by large landscaped gardens or take a stroll in one of the many flower-filled city parks. Enjoy a day on the water or connect with the cultural offering in a city that never sleeps.

Our second style, tender earth, will set your spirits soaring. Enjoy the peacefulness of country life in cosy, rustic surroundings. Look around and find yourself in a world that's both dreamlike and authentic.

Stroll slowly between the olive trees in a beautiful, rolling landscape. Listen to the sounds of happily babbling brooks while the gentle scents of lavender and citrus fill the air. It's the perfect setting for a generous wine tasting after spending the day scouting the Mediterranean countryside.

# Tender Earth<sup>°</sup>

# Salty Dunes'

Let your mind wander with our third style, salty dunes. Picture the sand between your toes. You are relaxing at the seaside with only the sound of the waves to guide you. Doze off at sunset in the shade of the palm trees.

Immerse yourself in a feeling of simplicity and freedom while gazing over the ocean from your hammock. The wind has shaped the dunes into romantic waves, punctuated with jagged rocks, pearly white beach houses and wooden cabins. The air is filled with the tangy smell of marine salt and freshly caught fish.

Sink into the embrace of crisp water, our final style. Imagine yourself floating under a radiant sun, listening to the sounds of joyful summer tunes and splashing water by the poolside.

Clink your glasses of bubbling champagne and fruity lemonade together as you initiate your exhilarating pool party. Dive in! Inhale the fresh, intoxicating aromas of lime and oleander, the natural scents of summer, blended with the classic holiday smells of sunscreen and chlorinated water.

# Designers'

# Stephane De Winter

## Transcending beauty through artisanship

Designer of Torsa, Cascade, Zendo Sense, Kobo and Radoc

Good design goes hand in hand with usability and comfort. That is what inspires Manutti founder and head designer Stephane De Winter (1968). He created and guards the unique Manutti DNA: smart design, craftsmanship and a profound sense of quality. This is reflected in his Kobo, Radoc and Zendo Sense collections, featuring a mix of refined, classic designs with a contemporary twist. Always receptive to the customer's needs and in line with the latest trends, his team transcends itself to go beyond beauty.

# Matthew Townsend

## Establishing timeless connections

Designer of Cobi & Sunrise

After studying industrial design in Montreal, American designer Matthew Townsend (1992) pursued his passion for furniture design by moving to Florence, Italy. Aesthetics and functionality come together perfectly as Matthew constantly finds creative new ways to use materials in his designs. "Establishing a strong personal connection between user and the design is what makes a piece timeless" says Matthew, who believes that good design comes down to the user's experience and perception of that piece. The Cobi coffee table collection was his first design for Manutti. With Sunrise, Matthew has created a completely new and unique collection consisting of sofa's, chairs, tables and loungers. The use of fabric and textile as part of the furniture frames creates an intriguing yet balanced contrast.

# Robin Hapelt

## Playful design from the heart

Designer of Sandua

For the Swiss-German designer, Robin Hapelt, great design doesn't just have to look good, it should also make people happy. That's why all of his pieces exude contrast and humour. Hapelt is now residing in Southeast Asia, which he calls "a very exciting and inspiring part of the world." Much of his work reflects the Asian culture, particularly his use of Oriental weaving techniques and materials like rattan and bamboo. He makes his debut designing for Manutti with the ethnic-inspired Sandua collection, for which he spent many hours experimenting himself with different weaving patterns and techniques.

# Metrica Design Studio

## International classics with an elegant twist

Designer of Flex

The Milanese design studio Metrica, headed by Lucio Quinzio Leonelli and Robin Rizzini, brings a touch of Italian flair to Manutti. Internationally acclaimed for its exclusive mixture of creation and technical management, the studio's designs are elegant and meticulously crafted. The collaboration with Manutti resulted in the Flex collection, a balancing act between traditional aesthetics and a unique, elegant shape.

# Gerd Couckhuyt

## Inspired by life

Designer of Elements, Mood & Moon Island

Inspired by the beauty of everyday life, Gerd Couckhuyt (1970) is an award-winning Belgian designer whose Manutti collections breathe subtlety, elegance and fun. The Mood collection comes with a touch of light and translucence. His vibrant style fits perfectly in the Moon Island collection, seamlessly combining pure lines with colourful designs. The enticing forms and alluring architecture of the Elements collection earned Manutti the 'Red Dot Award for Product Design'.

# Lionel Doyen

## Beyond the aesthetics

Designer of Kumo & Solid

With a practical understanding of product usability and an eye for fine details, Lionel Doyen (1978) takes a slightly different approach to design and development. Specialised in service, product and industrial design, the French designer aims to create on a more personal and experimental level, always keeping the customer's experience in mind. His style can best be described as innovative and timeless, as he consistently looks beyond mere aesthetic appeal. He designed the Kumo & Solid collections for Manutti, blending design with everyday comfort. In 2013, he launched his own design studio.

# Koen Van Extergem

## Great in simplicity

Designer of Air, Duo & Lumo

Through his elegant minimalistic style, Belgian designer Koen Van Extergem (1989) has brought a sense of purity and lightness to Manutti. He studied product development and furniture design and joined the Manutti design team in 2013. His sleek, clean-cut creations are at the heart of the Air, Lumo & Duo collections: a new generation of durable outdoor solutions that are meticulously crafted, yet warm and full of character. In 2018, he was recognised with the Archiproducts Design Award for his Duo rocking chair.

# Collections

# Manutti icons

Every Manutti piece is created with passion, purpose and attention to aesthetical and technical detail. While we take pride in all our collections, there are a few that stand out above the rest due to their unique design, technical sophistication or simply because they never cease to intrigue us. They are both avant-garde and timeless, and the embodiment of true outdoor luxury. They are Manutti icons.

## Sandua

designed by Robin Hapelt

It is a thing of beauty when craftsmanship and innovation combine in perfect harmony. Distinctly different from one another, yet perfectly in sync, each piece in the Sandua collection is an ode to true artisanship. An organically shaped woven shell is cradled by the sculpted wooden base. Designer Robin Hapelt developed a both modern and unique take on traditional weaving techniques, using not one, but two different materials, resulting in unmatched aesthetics as well as comfort.

# Moon Island

Designed by Gerd Couckhuyt

Moon Island consists of four sofa islands that can be mixed and moved around a central coffee table or footrest. The minimalist design gives your imagination free rein: possibilities range from an intimate sofa corner to an accommodating lounge island. The Moon Island collection comes in a wide variety of fabrics and colours.
