SHAF

Design,
functionality,
accurate
details,

makes SHAF a progressive firm always ready to follow the growing demands of the market. SHAF has a great respect of the environment, SHAF utilizes for its products exclusively 100% recyclable materials. The style that SHAF is suggesting is strictly linked with quality and security issues. Our research in such direction and the use of high technologies and over-refined materials grants us the certification of our products in compliance to the CE quality and security standards.
