NL: ADVIES VERKOOPPRIJZEN INCL. BTW

EN: ARTICLE NUMBERS

For your reference, please note that our article numbers are composed as followed.

For example: 410 107 0001 085

410 107	Article	The first 6 numbers will describe the article .
0101	Colours	Next 4 numbers represent the colours.
085	Size	Last 3 digits will tell you the size of the article.

FR : RÉFÉRENCES DE PRODUITS

Pour votre compréhension, sachez que les références des produits sont élaborées de la façon suivante.

Par exemple:410 107 0001 085

410 107	Article	Les 6 premiers chiffres indiquent la famille de l'article.
0101	Couleurs	Les quatre chiffres suivants définissent les coloris.
085	Taille	Les trois dernières lettres ou chiffres indiquent la taille de l'article.

DE : ARTIKELNUMMER

Alle Artikelnummern sind nach einem festen Prinzip aufgebaut.

Zum Beispiel:410 107 0001 085

410 107	Artikel	Die ersten 6 Ziffern stehen für die jeweilige Artikelgruppe.
0101	Farbe	Die darauffolgenden vier Ziffern stehen für die jeweilige Farbe bzw.
085	Größe	Die letzten drei Ziffern repräsentieren die Größe des Artikels.

NL : ARTIKELNUMMERS

Ter informatie een woordje bij onze artikelnummers.

Bv. 410 107 0001 085

410 107	Artikel n°	De eerste 6 cijfers verwijzen naar het artikel zelf.
0101	Kleuren	4 getallen erna zijn de kleuraanduiding.
085	Maat	De laatste 3 cijfers of letters geven de maat aan.

WxDxH(SH):

CERAMIC / HPL	62
FABRICS	63-64

MATERIALS

ALUMINIUM

Aluminium is a lightweight metal that is very strong and durable. The alloy we use guarantees excellent resistance to corrosion and has outstanding material properties. All aluminium products in the OASIQ collection are polished by hand, which produces a very beautiful finish when painted. After polishing, the furniture is cleaned, chemically treated and painted using an electro-statically applied polyester powder coating. This gives the furniture a very strong finish, making it scratch resistant and weatherproof.

TEAK

Teak is a beautiful dense hardwood with a uniquely high natural oil content. This means that it easily withstands all kinds of weather conditions. Even without any form of protection, sun, rain and snow do not diminish the quality of this natural material. Our teak furniture is delivered to the customer untreated. Under the influence of weather conditions, teak furniture will slowly change colour to a silvery grey that perfectly matches its natural surroundings. In order to prevent dirt and stains settling into the pores of the wood, we recommend regular cleaning. After a while, teak furniture might develop fine cracks in the end-grain parts, such as legs and arms. This is nothing to worry about. It is a natural process of the wood that will disappear with the natural changes in the weather and the consequent change in the moisture content of the wood.

ROPE

All rope used in OASIQ woven furniture is manufactured from a combination of high performance Textilene® and solution-dyed Diversatex® Olefin outdoor yarns. This rope is tough and durable, yet soft and supple. As the yarns are dyed all the way through and have excellent UV-resistant properties, these ropes will remain colourfast for many years and will withstand the rigours of outdoor use with style and elegance.

STAINLESS STEEL

All stainless steel products in the OASIQ collection are made of Grade 304 stainless steel. This metal consists of various alloy elements such as iron, nickel and chromium. When exposed to air, a hard chromium-oxide layer is formed that protects the metal against corrosion. Our stainless steel products have been hand brushed to give their surface a satin-like shine that feels very smooth. The result is a corrosion resistant surface that is easy to clean and maintain.

HPL

HPL (high pressure laminate) is a flat panel, based on thermosetting resins and wood-based fibres. These panels are manufactured under high pressure and at high temperatures. This process ensures that the resins in the core layers of the panel and on the surface bind with each other. The result is a homogenous panel of high density. More info on page 39.

CERAMIC

A ceramic material is an inorganic, non-metallic, often crystalline oxide, nitride or carbide material. Ceramic materials are brittle, hard, strong in compression, weak in shearing and tension. They withstand chemical erosion that occurs in other materials subjected to acidic or caustic environments. More info on page 39.

CORAIL

CORAIL's array of colours provides the palette to experiment to your heart's content. Simply mix and match to create the combination that reflects your personal style. Liven things up with a mixture of different pastels. Create bold contrasts in black and white. Or tone it down with matching sets.

Versatile and compact, the CORAIL chairs and tables are ideal for urban gardens and balconies. Robust aluminium slats provide excellent seating comfort, with or without cushions. This lightweight collection is easily moved to your favourite outdoor spot. And even the tables can be conveniently dismantled to save storage space.

The rope is made of Texteline + Olefin ® yarn.

SANDUR

On sandur you are almost suspended in thin air. And, as everyone knows, it doesn't get more comfortable than that. All thanks to a nifty design that uses a unique open weave to reduce contact with hard surfaces to a minimum. On this eye-catcher, you're always sitting pretty.

Sandur's distinctive patterns accentuate the breezy character of this model. A tubular stainless steel frame supports a strong and weatherproof rope weave. The rope is handwoven on to the frame by skilful artisans who take pride in the outstanding quality of their work. With a variety of stylish colour combinations, this collection is ideal for any outdoor setting.

A black round table with a wine bottle and glasses on a patio. The table has a black top and a black metal frame with wooden legs. A bottle of wine and four glasses are on the table. A green chair is visible behind the table. In the background, there is a large tree and a building with large windows.

SERAC

The serac tables are a model of distinctive design combined with down-to-earth versatility. Branched frames harmonise perfectly with slender tops. Available in various sizes and finishes, serac keeps it simple while rising to any occasion.

MACHAR

The centrepiece of your outdoor dining space, machar is a table of grand proportions and fine lines. Take your pick from black or white aluminium frames with matching aluminium legs or with contrasting teak legs. These are splendidly topped off with durable and weather-resistant trespa® hpl, stunning teak or sleek ceramic tops. Machar is always set to impress with its spacious dimensions and magnificent stature.

CERAMIC

Our ceramic tops are durable and stain-resistant and they offer an exquisitely sophisticated natural look.

The ceramic tops are available for our MACHAR - SERAC - ATTOL tables.

03 White ceramic

11 Grey ceramic

45 Anthracite ceramic

HPL

Our HPL tops are made of TRESPA® high pressured laminated panels with a very high density.

The HPL tops are available for our MACHAR - REEF - SERAC - CERU tables.

03 White HPL

01 Black HPL

45 Nordic Black HPL

FABRICS SUNBRELLA

Cushions & fabrics

OASIQ cushions are covered with Sunbrella or Dolan fabrics. These fabrics have been especially developed for outdoor use and are made of solution dyed yarns. This unique colouring process guarantees optimal UV-resistance and durability. Most of the covers can be removed for cleaning.

In case the cover cannot be removed the cushion can be washed completely. The fabrics have also been treated with a water repellent Teflon layer.

Weatherproof cushions

The foam cores of these cushions are made of a special weatherproof foam called QuickDry Foam.

This is a cutting edge, high performance foam designed specifically for outdoor cushions. Manufactured from carefully selected high grade material, QuikDry has extreme durability and strength.

Its unique porous open cell structure allows water to drain very rapidly and fresh air to circulate freely.

The cushions for Riad and Yland LX are also weatherproof but do not have QuickDry foam. For these cushions we use regular high density foam over which we have a waterproof cover. On top of that comes the water repellent fabric cover which makes these cushions also weatherproof.

Non weatherproof cushions

For our regular cushions we use regular high density foam over which there is a fabric cover.

FABRICS DOLAN

Washing

Most cushions have a zipper so that the cover can be removed and washed. In case the cushion has no zipper the complete cushion can be washed.

For washing we recommend a woll washing program and a temperature of max. 30 degrees.

DOLAN Vintage cushions

Our Vintage decoration pillows are made of DOLAN yarn. This is an acrylic fiber which has been used for outdoor for more than 25 years. DOLAN has also a very good weatherproof resistance and very high colour fastness. This fabric has been used for many years for convertible car tops.

WARRANTY STATEMENT

OASIQ's warranty policy for our teak, stainless steel, woven materials and aluminum frames is 3 years and 2 years for our cushions and fabric. Warranties are valid only from the receipt date of the original order. The warranty policy covers manufacture defects with normal usage.

The warranty for the powder coating is two years and covers peeling, blistering or cracking. This warranty does not apply to damage resulting from improper maintenance, misuse, negligence, or normal wear.

In all cases, warranties apply only to the original owner during normal residential use. Contract / commercial warranties are 2 year for all materials.

Teak is a naturally oily wood and in some instances may stain the cushions. OASIQ will not be held responsible for that. Fine cracks in teak are normal occurrences that are non-structural and do not yield the product defective. OASIQ is not responsible for maintenance performed on any piece of furniture except otherwise done by OASIQ.

For Stainless steel frame furniture that is used directly on the coast. A weekly cleaning is required and it is advisable to often use a sponge and mild soap, such as natural liquid dish detergent, to more thoroughly clean off any deposits. We do not offer a residential warranty against rust for frames used in this environment. Never use industrial pressure washers, abrasive products, or cleaners with bleach or chlorine when cleaning any type of stainless steel.

All claims must be submitted in writing with a clear and details photo's and repair and/or replacement will be at our discretion.

Please note that all custom orders are final sale and will not be accepted as a return. If an order is cancelled after the deposit is received, please note the deposit is non-refundable for custom orders.
