ZENITH

Conceived by Danish designer, Henrik Pedersen, the Zenith collection marks the peak of the Gloster design aesthetic. A blend of diverse materials combine in a lounge collection that is simple, yet striking. Modern yet familiar. Luxurious yet practical.

DESIGNER - HENRIK PEDERSEN (DENMARK)

ZENITH

As the name indicates, Zenith is all about placement in relation to the sun. Are you chasing the warm golden rays or looking for the calm and soothing shade on a hot day? Zenith will accommodate your needs for easy and convenient mobility. And with the modules on wheels, your favorite spot is always within easy reach.

DESIGNER - HENRIK PEDERSEN (DENMARK)

LIMA LOUNGER

The Lima collection, which has a strong and clear reference to Nordic design traditions, is now complemented by a new lounge. A minimalistic design statement, the function of the Lounge could be either indoor or outdoor - indoor as a traditional Scandinavian daybed or outdoor as a stylish and practical sunlounger.

DESIGNER - HENRIK PEDERSEN (DENMARK)

SARANAC & SEPAL

When designing Saranac & Sepal, Mark Gabbertas imagined a design that combined exceptional comfort with an enduring aesthetic. A design approach which seduced rather than shouted, that one would feel at ease with immediately, and which could continue to charm for years.

DESIGNER - MARK GABBERTAS (UK)

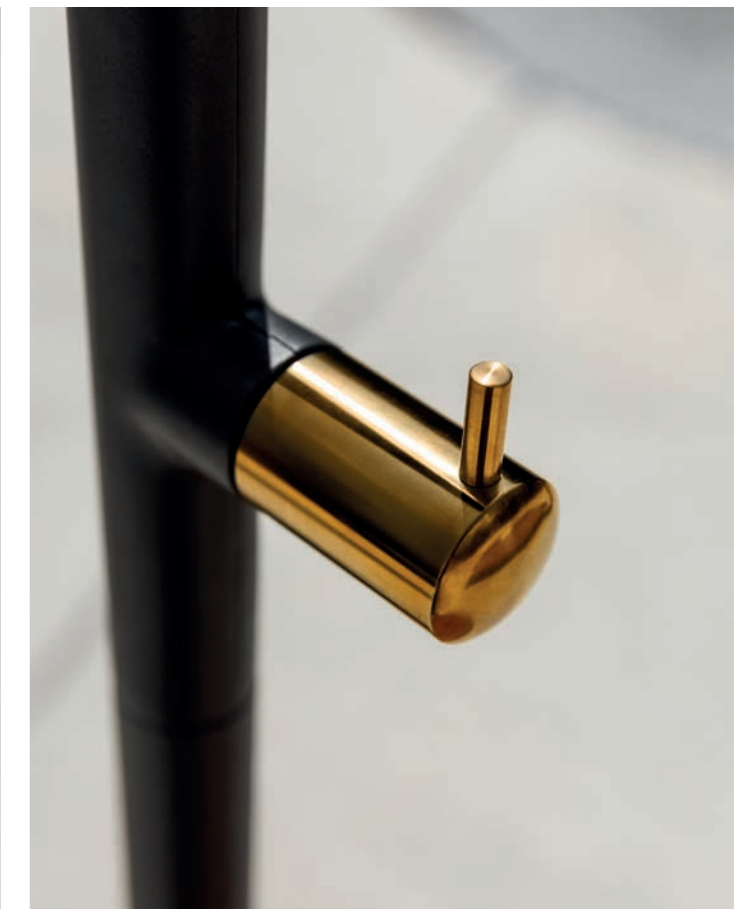

GARDEN SHOWER

Outdoor living and cool, refreshing water goes together and the new Deco Garden Shower offers exactly this. Free placement due to the teak base and a pleasant surface to put your feet on. Always nice to the touch, teak is the perfect choice for this interaction, because it's never hot in the sun, and never cold in the shade. The teak base is combined with a clear and defined design for the frame- based on lower and upper rings, connected by one single straight line. To finish the design, a shower head in a contrasting, polished powder coat finish is a subtle reference to the real solar disc above.

DESIGNER - HENRIK PEDERSEN (DENMARK)

LIMA DINING

The essence of natural and tactile materials are brought together into one, defined element in the Lima collection by Henrik Pedersen. Plantation teak and outdoor wicker combine in a subtle mix, where you can sit down, hang out, and feel the warm embrace of nature.

DESIGNER - HENRIK PEDERSEN (DENMARK)

LIMA DINING

As an extension to the existing Lima seating collection, Lima Dining talks the same design language – one of simplicity, honesty and a deep sense of quality and genuine craftsmanship. An expression rooted in the Scandinavian tradition, where warm, natural and tactile materials are combined in a simple but aesthetic unity.

DESIGNER - HENRIK PEDERSEN (DENMARK)

COSO

Beautiful and tactile ceramic is the foundation of the Coso collection. The striking contrast between a rustic natural ceramic surface and a deep glaze with natural light reflections, becomes a playful contrast, that can be emphasized further by the mixing of the three different, earthy colours. To complete the aesthetic, a natural, warm teak top is removable – making the table both functional and charming at the same time.

DESIGNER - HENRIK PEDERSEN (DENMARK)

BROWN COLOUR WAY

A natural extension of the Gloster colour palette - warm, earthy tones and subtle textures combine in a new Brown colour collection for 2022 season. Java powder coat, Emperor ceramic, Wren Ombre rugs and Coso tables in Earth colour glaze create a dynamic palette that is both comforting and practical.

BROWN COLOUR WAY

Choosing the right fabrics and combining the right colours are essential for the right result and we strive to make our fabric collection colour co-ordinated across the individual themes, making it easy for customers to mix and match. New for 2022 is the addition of a collection of fabrics to complement the new brown colour way introduced for other materials.

FRESCO

Fresco picks up on the spirit of the 1960's - the timelessness, the ease and the elegance of terraces in Rome, Aspen, the Riviera and Malibu at that time. The light, almost floating seat element on the white, powder-coated aluminum frame resembles a shell and results in an organic and ergonomic shape.

The innovative, specially developed all-weather wicker used features a distressed finish - giving the furniture a familiar and natural feel and is woven in a subtle, open pattern giving a delicate composition to the furniture. Together the frame and wicker elements shape the sophisticated, light style of the collection comprising of dining and lounge chair, dining table and side table.

DESIGNER - MATTEO THUN (ITALY)

OMADA

Freedom is indeed luxury. Omada represents a refresh of the classic Nomad collection of modular seating originally launched in 2012 and embodies the same spirit as the original - the freedom to move wherever you want and the ability to sit however you want. The gently contoured body of the chair and ottoman are woven in Wheat colour, textured wicker and use a relaxed and generous upholstered cushion.

The inherent simplicity of Omada is also the key to its success. Use the pieces alone or combine loosely together to form a longer sofa – the choice is yours and always easy to change when the mood suits.

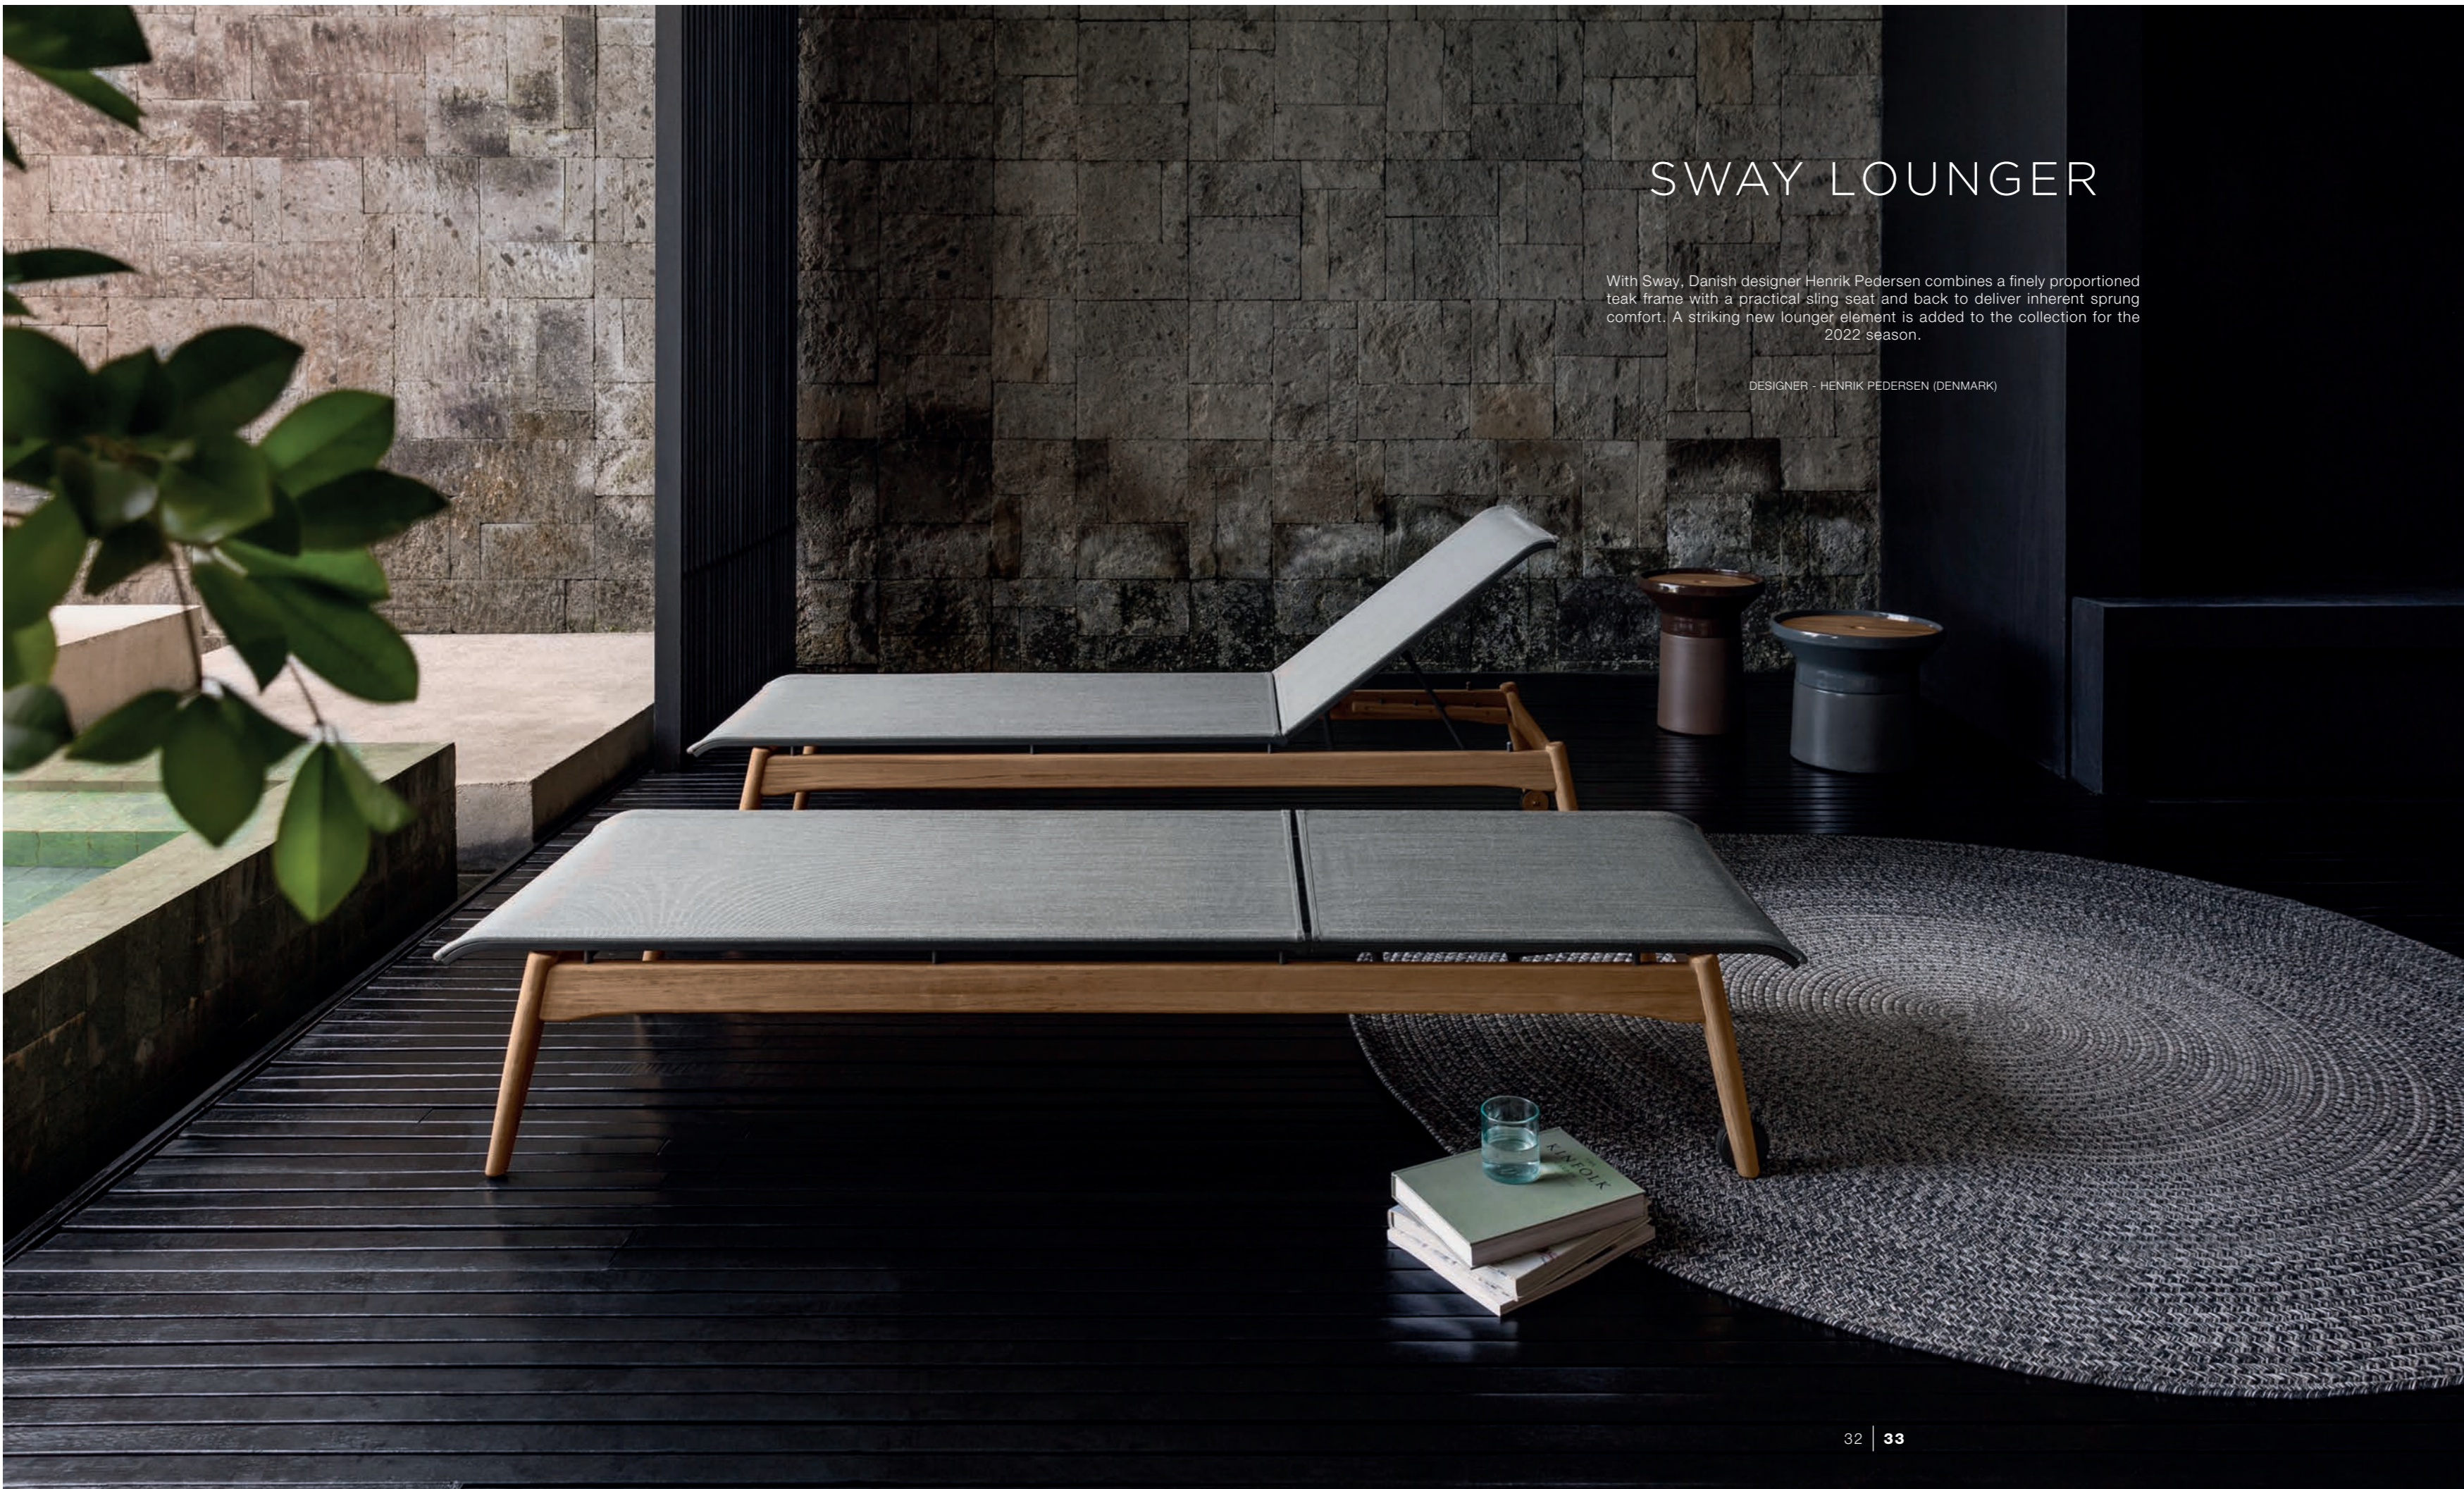

DESIGNER - MARK GABBERTAS (UK)

SWAY LOUNGER

With Sway, Danish designer Henrik Pedersen combines a finely proportioned teak frame with a practical sling seat and back to deliver inherent sprung comfort. A striking new lounge element is added to the collection for the 2022 season.

DESIGNER - HENRIK PEDERSEN (DENMARK)

ALLURE

Comfortable, practical and stylish. The Allure Stacking Dining Chair features a hard-wearing, powder coated aluminium frame with a solid aluminium back panel that is gently curved for perfect ergonomics.
