NOI SIAMO ITALIA

IL NOSTRO SIMBOLO - OUR SYMBOL

Il simbolo del nostro marchio non rappresenta solamente l'iniziale del nostro nome.

La nostra A:

rappresenta la casa che Arredamenti Italia si pone come compito di decorare, proponendo a tutte le famiglie prodotti utili e funzionale per comporre la casa dei loro sogni.

La nostra A:

rappresenta una casetta stilizzata, semplice come le forme dei nostri prodotti ma con pareti solide e robuste come la struttura dei prodotti che realizziamo.

La nostra A:

Diamo il nostro meglio ogni giorno per creare prodotti che abbiano un livello qualitativo di classe A

La nostra A:

quella che spesso si vede anche nel concept dei nostri prodotti:

The symbol of our brand is not just the initial of our name...

Our A:

it represents the home that Arredamenti Italia sets as its task of decorating, proposing to all families useful and functional products to compose the house of their dreams.

Our A:

it represents a stylized house, simple as the shapes of our products but with solid and sturdy walls like the structure of the products we make.

Our A:

we do our best every day in order to create products which have a class A like quality level.

Our A:

what is often seen in the concept of our products:

La storia di: Arredamenti Italia

Chi siamo

Arredamenti Italia è un'affermata azienda sul mercato nazionale in ambito dell'arredamento che fin dalla sua nascita ha saputo far tesoro della tradizione artigianale con le sue regole tramandate ora alla terza generazione.

Le origini

Le origini di Arredamenti Italia trovano collocazione nella laboriosa Valle Sabbia, terra di lavoratori in provincia di Brescia. Da qui il signor Eugenio Caccagni intende sviluppare il suo spirito imprenditoriale lavorando il legno, dapprima come terzista per una grande azienda locale, sviluppandosi poi negli anni e proponendo i propri prodotti sul mercato con il marchio Arredamenti Italia. Dal 2017 l'azienda ha cambiato il marchio dei prodotti in Arit.

Company staff end of '50 - Organico aziendale fine anni '50

Lo sviluppo

Grazie ad una mentalità sempre rivolta al futuro e al miglioramento, grazie ad investimenti mirati la società è cresciuta negli anni raggiungendo una distribuzione quanto più estesa sul suolo Italia. Grazie all'ingresso di un'apparato manageriale l'estensione si è protratta al di fuori del suolo italiano, raggiungendo luoghi lontani con la consapevolezza delle proprie origini.

La lavorazione

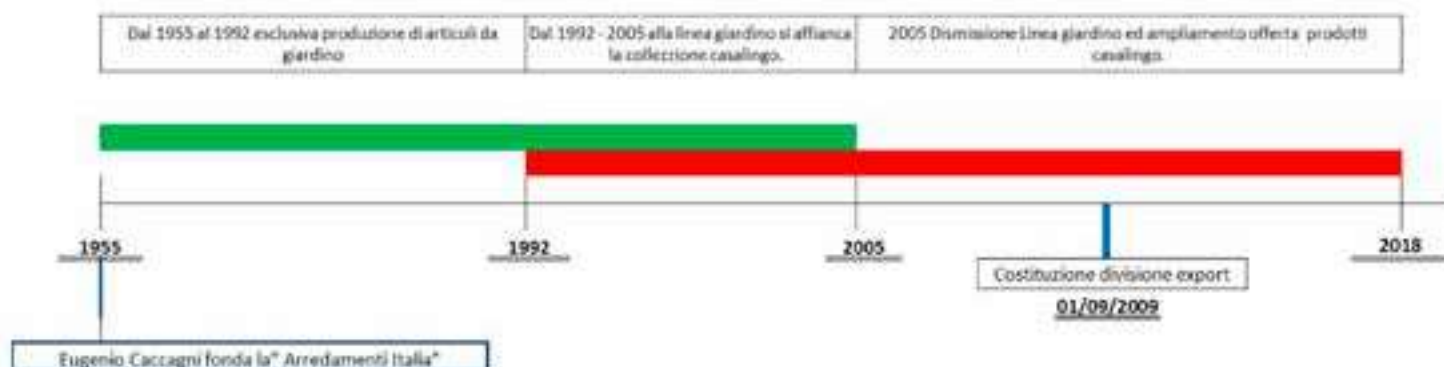

La produzione Arredamenti Italia è frutto di accurato lavoro e costante impegno di un compatto gruppo aziendale che, pur mantenendosi legato alle consuetudini artigiane, affianca le più sofisticate tecnologie della lavorazione del legno con aggiornati investimenti mirando al raggiungimento dei più alti standard qualitativi. I prodotti Arredamenti Italia sono totalmente ed esclusivamente creati nella sede dell'azienda: Bione, Brescia. Il profondo amore nutrito per il legno impone di rispettare l'ambiente. La collezione Arredamenti Italia è realizzata con materiali di alta qualità e processi di produzione accurati, la cura dei particolari e l'alta qualità delle lavorazioni sono ben visibili nella precisione delle finiture. Le tecnologie ed i materiali innovativi combinano benefici funzionali con durata nel tempo e facilità di manutenzione; la fase finale della produzione testa i prodotti nelle condizioni più critiche prima di essere inoltrati sul mercato.

Mission

Lavoriamo il legno da sempre e, da sempre, sappiamo esaltarne tutte le qualità e la bellezza. Il nostro Prodotto nasce da mani artigiane che, piegando questo nobile materiale alla loro sapiente volontà, sanno assecondare le esigenze del design più attuale.

Vision

La tradizione artigiana moderna, questo vogliamo immettere nel nostro prodotto. La percezione di un prodotto dalle fattezze artigianali derivato dalle tecnologie attuali per poter soddisfare i bisogni sempre più moderni. Non abbiamo la presunzione di risolvere i problemi delle famiglie nelle faccende domestiche, a noi però il piacere ogni giorno di renderli più confortevoli con i nostri prodotti.

The story of: Arredamenti Italia

Who we are

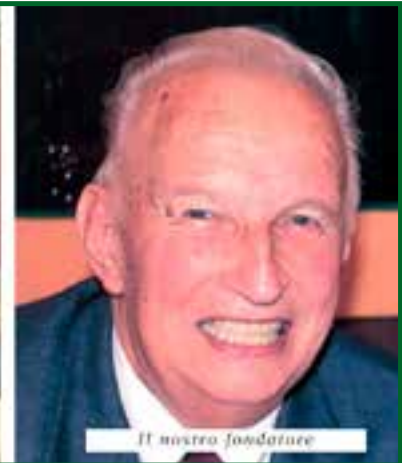

Arredamenti Italia is a company established in the domestic market in the field of furniture, that since the beginning has been able to profit from the traditional craftsmanship, with its rules passed now to the third generation.

The origins

Arredamenti Italia got its roots in the laborious Sabbia Valley, land of workers in the province of Brescia. Since the beginning Mr. Eugenio Caccagni develops his entrepreneurial spirit working wood, first as a subcontractor for a big local company, developing later in the years and offering their products on the market under the brand Arredamenti Italia. Starting from 2017 the company changed the product's brand in Arit.

Current executive staff

Our founder

Development

With a mentality always focused on improvement into the future, thanks to targeted investments the company has grown over the years, reaching a wider distribution than in Italy. Thanks to the input of managerial apparatus the extension lasted beyond Italian soil, reaching far away places with great awareness of own origins.

Processing

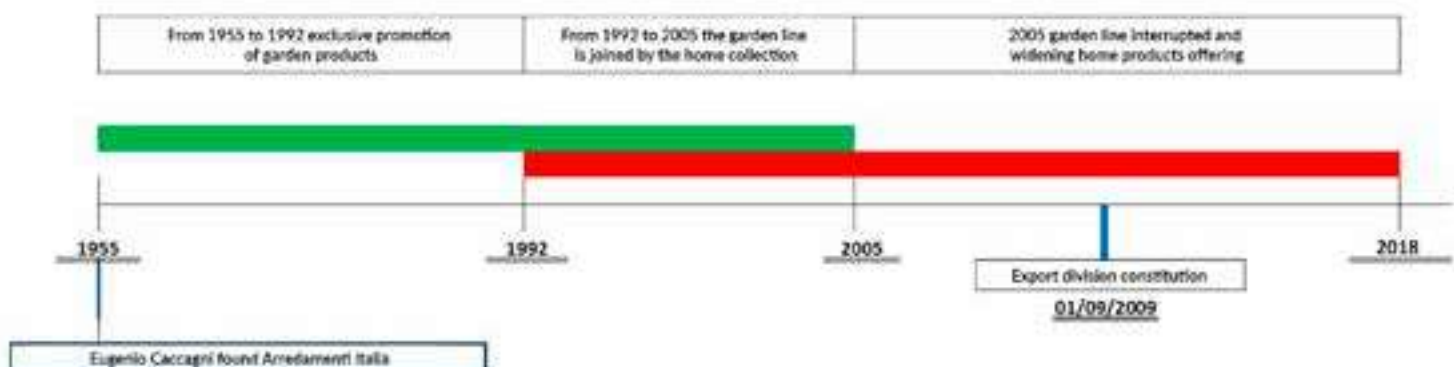

The Arredamenti Italia production is the result of careful work and constant commitment of a compact group of companies which, on the one side remains linked to the custom crafts, on the other, combines the most sophisticated technologies of woodworking with updated investment aiming to achieve the highest quality standards. Arit products are totally and exclusively created in the company's headquarters: Bione, Brescia. The deep love for the wood requires respect for the environment. Arredamenti Italia collection is made with high quality materials and accurate manufacturing processes, the attention to detail and the high quality of workmanship are clearly visible in the accuracy of the finishes. The technologies and innovative materials combine functional benefits with durability and ease of maintenance; the final stage of production tests products in the harshest conditions before sending them to the market.

Mission

We always work the wood and always get out the best in terms of quality and beauty. Our product was born from craftsmen who, shaping this noble material according to their wise will know how to meet the needs of the most current design.

Vision

We want to introduce into our product the modern artisan tradition. The perception of a product from craft features derived from current technologies to be able to meet the newest and more modern needs. We don't have the pretension to solve the problems of the families, but every day we have the pleasure to make them more comfortable with our products.

L'azienda utilizza solo legno proveniente da aree geografiche certificate e da boschi la cui riforestazione è garantita e controllata da normative locali e verificata dai corpi forestali. Le foreste vengono quindi regolarmente rigenerate.

The company only uses wood from certified geographical areas and from forests where reforestation is guaranteed and controlled by local regulations and verified by the forestry organisations. The forests are therefore regularly regenerated.

ENERGIA DAL SOLE

Nel 2015 l'azienda ha investito in pannelli fotovoltaici, coprendo il 25% del suo fabbisogno energetico.

SUN ENERGY

In 2015 the company invested in a photovoltaic system, covering the 25% of energy needs.

RISCALDAMENTO ECOLOGICO

Nel processo produttivo, tutti gli scarti di legno vengono recuperati, nei silo, e riutilizzati come combustibile per il riscaldamento di stabilimenti e uffici. In questo modo il riscaldamento aziendale è ecologico, non utilizzando ne gas ne metano.

ECOLOGICAL HEATING

All the wood offcuts from the production process are recovered, into a silo, and reused as fuel for heating factories and offices, In this way the company heating is ecological, by not using gas or methane.

MATERIE PRIME - RAW MATERIALS

LEGNO - WOOD

Tutto il legno utilizzato per la realizzazione dei nostri prodotti proviene da segherie certificate FSC

All the wood used to realize our products come from sawmill FSC certified

CARTONI - PACKAGING

I cartoni utilizzati sono riciclabili al 100%, inoltre sono biodegradabili in quanto costituiti per più del 50% da materia organica.

The cartons used are 100% recyclable, they are also biodegradable as they consist of more than 50% by organic matter.

VERNICI - PAINTS

Le vernici utilizzate sono conformi alla normativa REACH, ed esenti da metalli pesanti in relazione alla normativa Europea EN71-3:2013

The paints comply with the REACH regulations, and are free from heavy metals in relation to the European EN71-3: 2013 standard.

PERCHÉ SCEGLIERE ARIT? - WHY CHOOSE ARIT?

100% MADE IN ITALY

Tutti i nostri prodotti sono interamente progettati e realizzati in Italia.

QUALITÀ

Tecnologia e abilità artigiana per curare tutti i dettagli del prodotto, selezionando le migliori materie prime.

DURATA

Tutti i nostri prodotti sono studiati per durare a lungo nel tempo.

FUNZIONALITÀ

Tutti i nostri prodotti sono progettati per dare la massima utilità quando aperti, una volta chiusi scomparire negli angoli della tua casa.

SERVIZIO

Servizio clienti sempre a disposizione. Prodotti sempre disponibili grazie ad un versatile sistema produttivo.

FLESSIBILITÀ

Abilità nell'assecondare le esigenze del cliente grazie ad un versatile sistema produttivo.

SERVIZIO LOGISTICO

Un efficiente sistema MRP ci permette di garantire consegne veloci per soddisfare svariate richieste.

100% MADE IN ITALY

All our products are entirely projected and realized in Italy.

QUALITY

Technology and artisan ability in order to care to all the product details, selecting the best raw materials.

DURATION

All our products are studied to be used for a long time.

FUNCTIONALITY

All our products are projected to have the best utility when opened, and disappear easily into the small corners of your home when folded.

SERVICE

Customer care always at your disposal. Products always ready thanks to a versatile producing system.

FLEXIBILITY

Ability to satisfy the customer needs, thanks to a versatile producing system.

LOGISTIC SERVICE

An efficient MRP system allows us to grant fast deliveries, in order to satisfy the requests coming from each kind of customer.
