

ELLY

COLLECTION

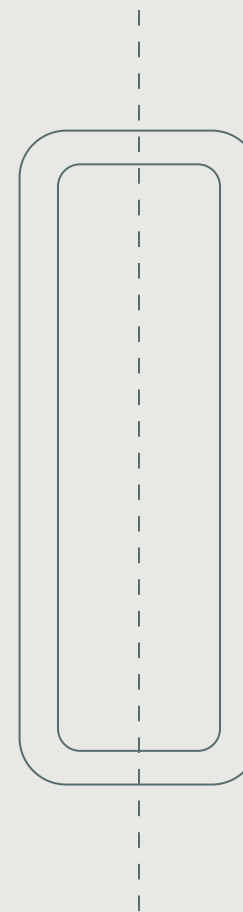

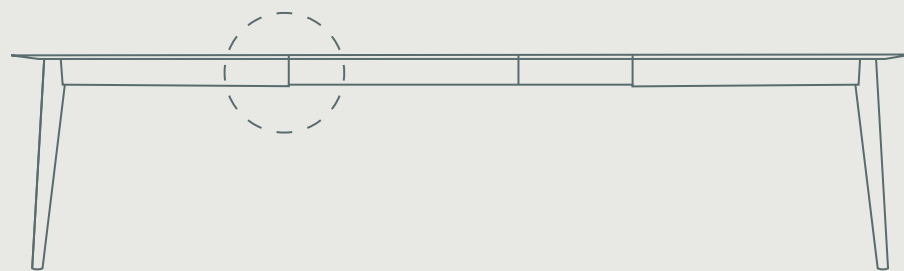

Matteo De Stefani

MATTEO DE STEFANI HAS BEEN AN ARCHITECT AND FURNITURE DESIGNER FOR OVER A DECADE.

Established interior designer, he designed the Ellipse and Ada collections and the new Elly collection, which we present in this catalog, for Sevensedie.

However, his heterogeneous experience saw him also involved in other activities; by him are the designs and set-ups of the stands that over the years have allowed Sevensedie to be one of the brands historically present at the Salone del Mobile in Milan; more recently, De Stefani took on the role of Artistic Director, taking care of the brand's image at 360°.

ELLY COLLECTION

Elly is the natural continuation of the product research already undertaken in the Ada collection: the choice takes its inspiration from vintage design, turning its gaze towards the most flourishing period of Italian design in the 1950s and 1960s; attention to detail, which can be seen in the spiked leg with metal toe, a true leitmotiv of this capsule; careful selection of finishes, colors and fabrics and, last but not least, ergonomics and functionality.

Sevensedie once again proposes a system of artifacts that communicate with each other: through this silent but tenacious connection between the various elements, the ambience takes energy and personality without ever being redundant or excessive.

Elly is a furniture program that is well suited to contemporary ambience but which at the same time respects the classic setting of the spaces: the collection has been studied in different finishes and decorative details so you can have a decidedly eclectic personality, while always keeping intact their own fundamental stylistic lines.

Enjoy the new Collection Elly.

RECAP	73

THE ELLY DINING ROOM

An ambience with powerful
and essential lines.

Dining

THE OSLO TABLE

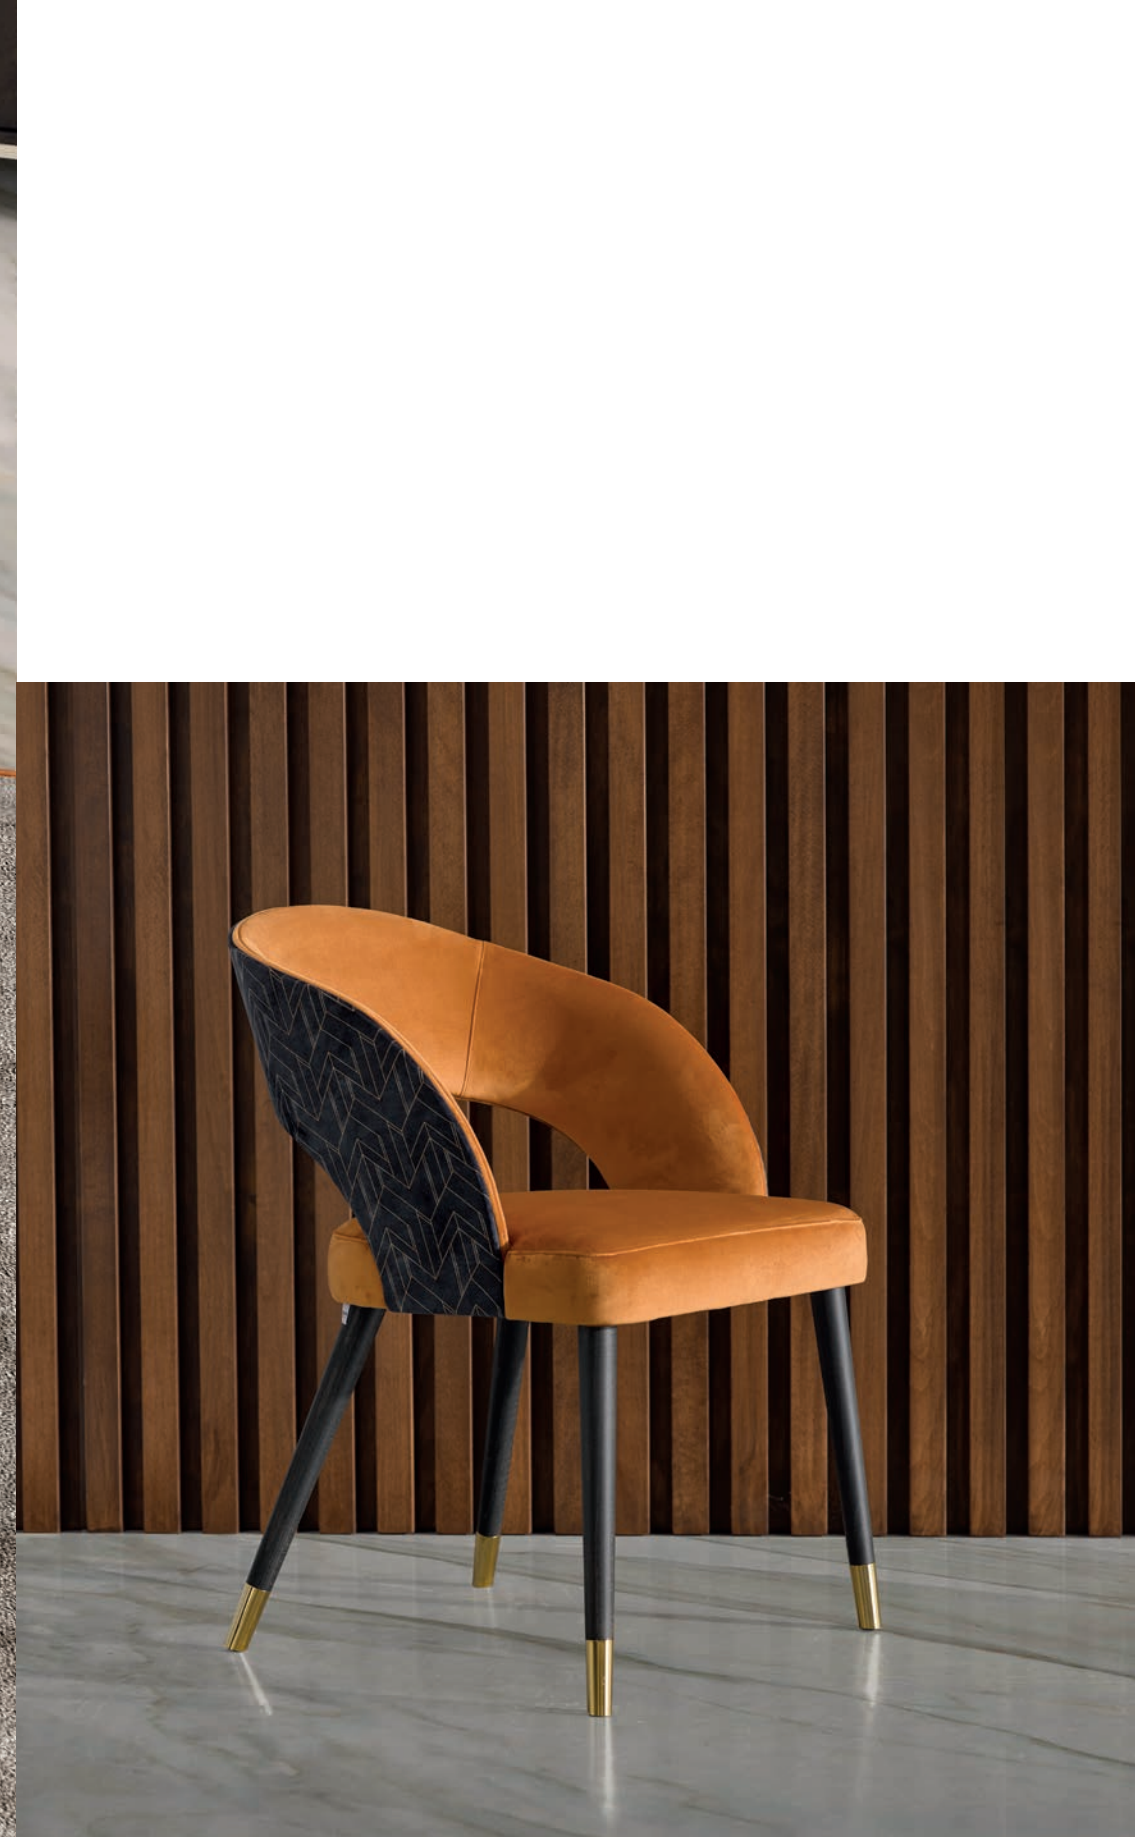

The design show up in the details.

Dining

When aesthetics and
functionality come
together.

Dining

The Oslo table has been designed to quickly adapt to the number of diners: thanks to latest generation mechanisms it can reach maximum extension in a few simple gestures

Dining

THE ELLY SIDEBOARD
Modern elegance with a retro taste.

Dining

THE ELLY SHOWCASE

lightness and transparency in a single instant.

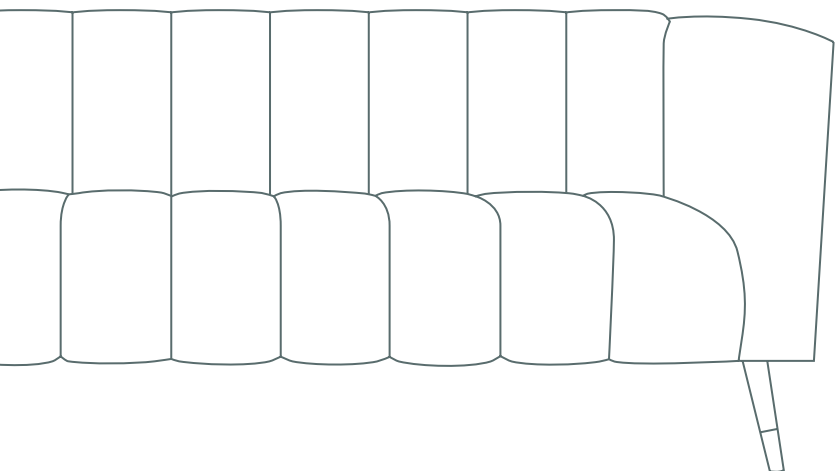

Dining

A TOUCH OF COLOR

And the Elly furniture changes, transforms itself, giving sweet notes and faraway atmospheres to the room. The magnificent blue color point of this limited series immediately throws you into a Mediterranean panorama where the colors of the sea are absolute protagonists. But blue is above all the color of the sky.

THE ELLY LIVING ROOM

A space designed for relaxation.

Living

THE NUBES SOFA

The soft welcome of a renewed "old-time" sofa.

Living

Club is a real comfortable armchair with particularly soft lines and markedly contemporary style.

Living

THE CONSOLE TABLE AND THE ELLY MIRROR

The secret of beauty lies in the simple shapes.

Living

THE HANDLE

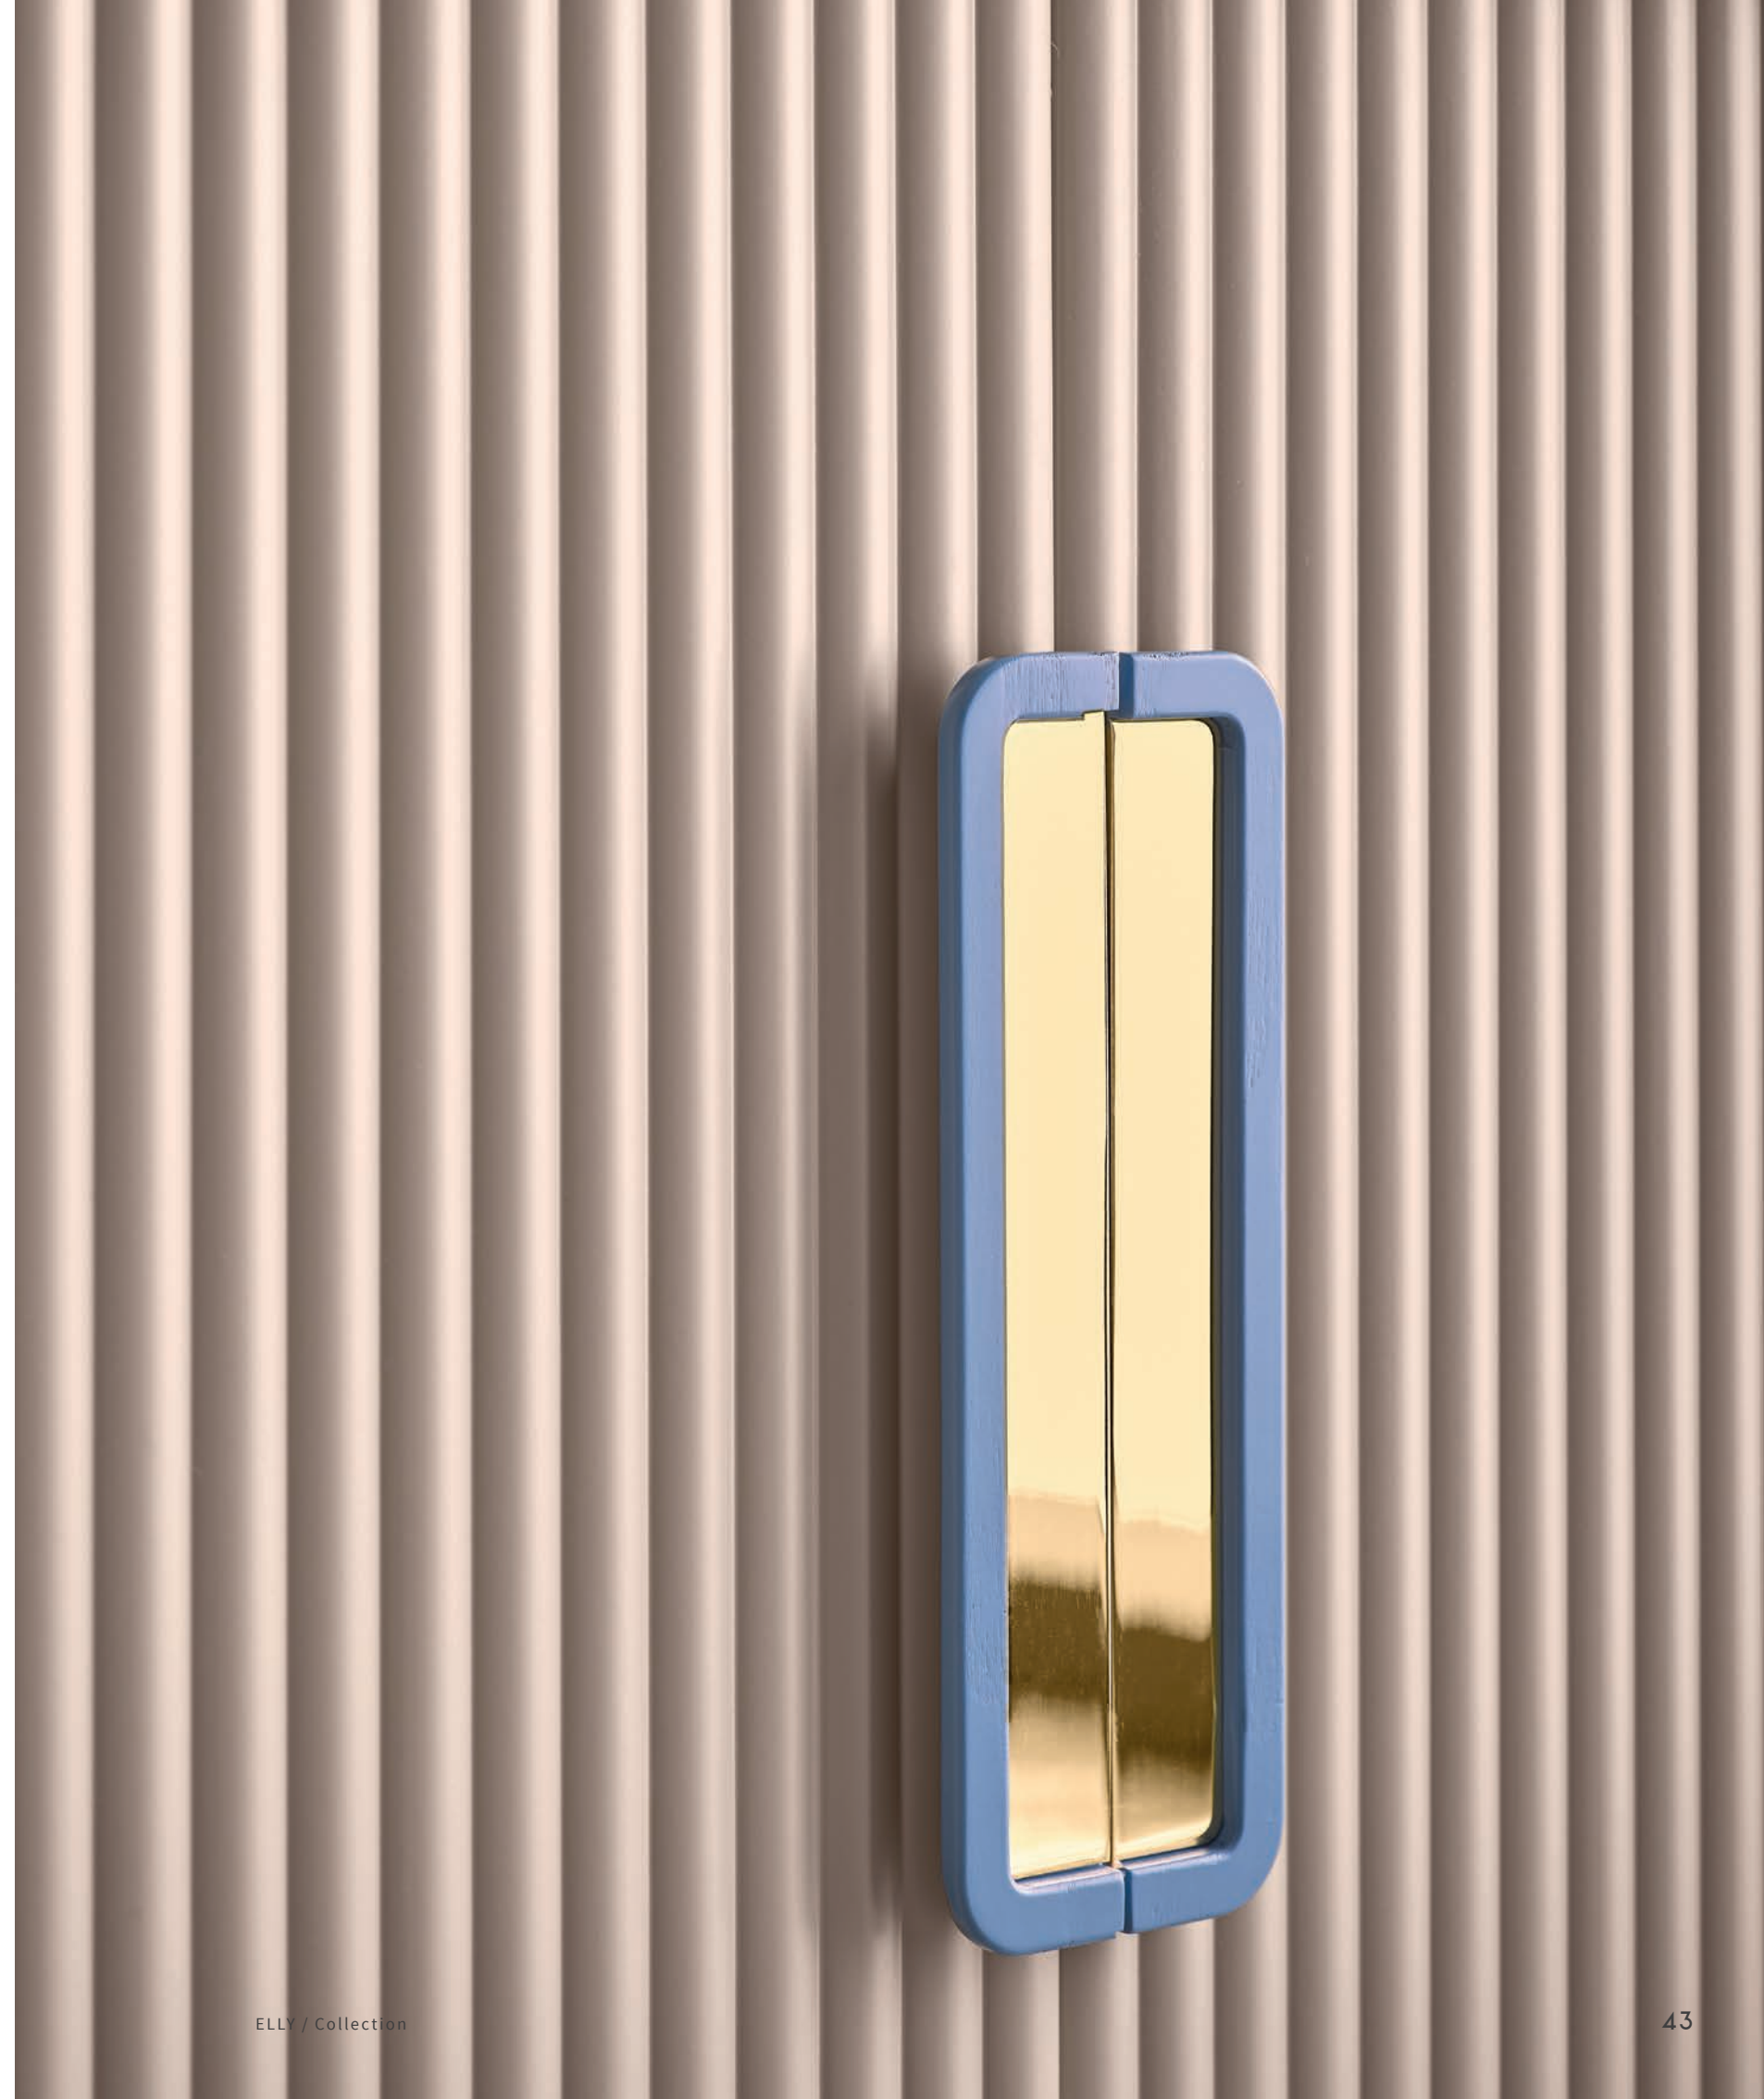

A pure form, a functional element that becomes the aesthetic, identifying detail of the collection.

Living

PRECIOUS SURFACES FOR AN EXCLUSIVE PIECE OF FURNITURE

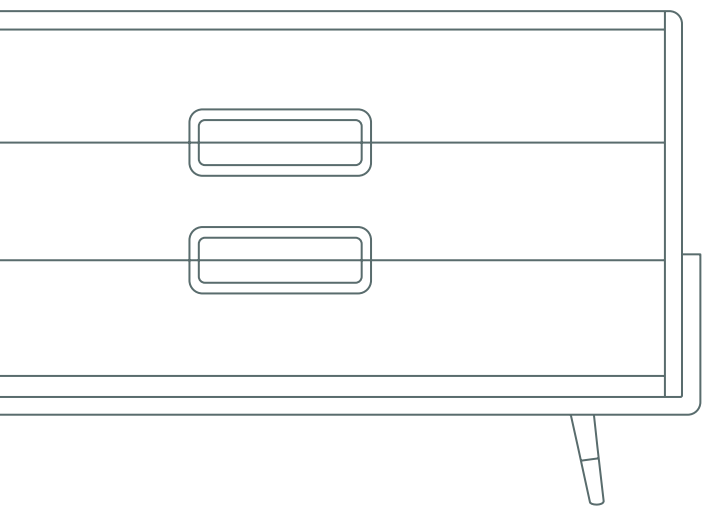

The Elegance line gives to the Elly sideboard a touch of luxury for unique ambience with great personality.

Living:

The Nubes sofa, the Moon coffee tables, the Club armchair, the console table and the large backlit mirror Elly silently dialogue with each other like actors in a scene, interpreting the emotions of the most demanding customers, transforming their needs for comfort and relaxation into tangible reality.

THE BEDROOM ELLY

The night is dressed in a sober elegance.

Bedroom

THE DRESSER

The dresser opens a silent dialogue between the sleeping area and the living area, linking its shapes and details to the sideboard of the dining ambience: an absolutely inevitable piece in our bedroom.

Bedroom

THE PERFECT SYNTHESIS

The bedside table is the perfect synthesis of the decorative details of the collection; spiked legs support with delicacy a drawer with curvilinear shapes in which the handle, deliberately oversized, becomes the absolute protagonist.

Bedroom

THE ECLECTIC SPIRIT

The different versions of the dresser highlight the eclectic spirit of a collection created for a unique purpose: to create your dream room.

Bedroom

BY THE HANDS OF OUR CRAFTSMEN

Every detail in the products of the collection was created by the hands of our craftsmen to be absolutely unique: Italian know-how finds in these furnishings a decidedly high response.

Bedroom

Simplicity of forms,
refinement of details.

Bedroom

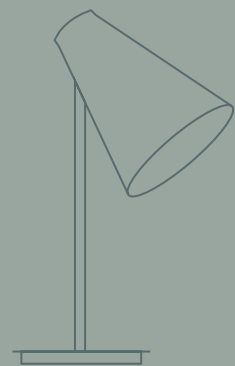

THE ELLY BED

The Elly bed, with flowing horizontal lines, has a headboard with an essence frame that echoes the shapes of the furniture in the collection and which contains an upholstered part characterized by a “pattern” absolutely unique.

Bedroom

THE ELLY DESK

The superior possibilities of a designed piece of furniture the Elly desk has been designed to have a double nature: it can be positioned at the wall and equipped with a functional raised shelf to place some objects, or become a center room desk to be able to accommodate two customer armchairs.

Bedroom

AN EVOCATIVE TOUCH

The Lucerna table lamp, specially designed for this collection, adds one more evocative touch to our products, becoming one unique part with them: the recess drawn on the raised shelf of the desk has the purpose of underlining this silent but tenacious bond.

Bedroom

THE PLATIS SEATS

Elegance, Comfort, Exclusivity in a single project.

Bedroom

PLATIS: THE DETAILS THAT MAKE IT UNIQUE.

The slender spiked legs, the emptied back, the elegant connection between seat and backrest, the possibility of "Dressing" the padded parts in infinite variations, give to these creations an unusual dynamism that transmits rhythm and movement to every ambience in which they are positioned.
